CAREER OBJECTIVE:

Enthusiastic, self-starter with a strong passion for software development is looking for entry-level roles that will challenge and broaden my horizons as a software engineer.

EDUCATION

B TECH – INFORMATION SCIENCE AND ENGINEERING Bengaluru
University Visvesvaraya College of Engineering | CGPA - 8.7

DIPLOMA – COMPUTER SCIENCE AND ENGINEERING Dharwad
KHK institute of Engineering | Percentage - 84.19

SSLC Nargund
Navodaya English Medium school | Percentage – 86.24

SKILLS

Programming Language: C, JAVA

Web Technologies: HTML, CSS

Mobile App Development: React- Native, Android-studio

Tools and Platforms: Git, VS Code, Postman

Concepts: Data Structures & Algorithms

- Object-Oriented Programming (OOP)

- Database Management Systems (DBMS)

- Operating Systems

- Computer Networks

Testing: Jest, Manual Testing,

INTERNSHIP

Mobile App Developer Intern | Greaves Electric Mobility Pvt. Ltd., Bengaluru
Feb 2025 – Present

- Developing and testing mobile applications for electric 2-wheelers & 3-wheelers using React Native.
- Integrating OpenStreetMap APIs for navigation and live location tracking.
- Performing bench-level and vehicle-level testing for performance and functionality.
- Collaborating with cross-functional teams and using Git for version control.

PROJECTS

Map Navigation App | React Native, OpenStreetMap API, OpenRouteService API

- Built a mobile application to locate the user's current position using GPS.
- Integrated location search with auto- suggestions for destination entry.
- Implemented route drawing from current location to selected destination using OpenRouteService API.

Twitter Sentiment Analysis | Python, Pandas, NumPy, Matplotlib, Scikit-learn, Tweepy API

- Built a machine learning model to classify tweets as positive or negative.
- Extracted and cleaned over 10,000 tweets using the Tweepy API for training and testing.
- Performed data preprocessing, feature extraction, and model training using Scikit-learn.

Leave Management System | HTML, CSS, JavaScript, PHP, SQL

- Developed a web-based application to track and manage employee leave requests.
- Designed the front-end interface using HTML, CSS, and JavaScript.
- Implemented backend functionality using PHP and SQL to store and process leave data.

CERTIFICATION

- Internship on innovation, Entrepreneurship and technical skills development by Quant Masters
- In-plant Training by Rabsons info world.

HOBBIES

SPORTS | TRAVELLING | READING NOVELS
